

## ***On-the-Job Training***

**Looking for a skilled employee?**

**Want help with the cost of training new employees?**

Vocational Rehabilitation (VR) has one of the most valuable resources a business wants – skilled employees.

Training employees is an incredible expense for most businesses. VR provides on-the-job training (OJT) funds to help reduce this cost for employers.

**\$\$\$ Money in Your Pocket \$\$\$**

**Minimize Employer Expense** – OJT funds vary depending on the complexity and length of the training required, and they are negotiated on an individual basis.

**Tax Credit** – Employers may utilize the Work Opportunity Tax Credit (WOTC) when hiring eligible individuals.

**Qualified Job Candidates** - VR assists companies in hiring skilled and productive workers.

**Post Hire Follow-Up** – VR provides individualized consultation and support for employee retention.
